

Bio-Chem Summer Work  
Rising Junior Addition

1. Have Fun!
2. HAVE FUN!!
3. H A V E F U N ! ! !
4. Tech Prep Prep: (We will be starting presentations in September!)
  - a. Title: Give your proposed tech prep project a title.
  - b. Summary: Write a paragraph or two describing your proposed tech prep project. Make sure the goal is stated first and is clear. Include why you think the project is worth doing here.
  - c. Procedure: Describe how you plan to achieve your goals described in the summary section
  - d. Sources: Find 5 VALID sources to be used for your tech prep project. Cite them properly and write a paragraph summary for each. Be sure to include why the source is useful to you.
  - e. Fix your presentation
  - f. Fix your grant

**Optional work:** CTE Work based Learning Hours: Earn points for lab next year by collecting WBL hours. WBL hours include things such as; volunteering for an environmental organization such as the Beczak or Ground Works Hudson Valley, volunteering at a hospital, working at a pharmacy and working at a doctor's office. Any job or volunteering opportunity that involves chemistry, biology or environmental science. Bring in a "time" sheet that includes; job, location, date, hours and signature of supervisor. Please note that in order to get WBL hours you NEED to complete a coop packet which you can get from me, BEFORE you start.
